CSE110 Group

1. Personal Goals

Each team member aims to:

- Improve their software engineering skills and communication skills.
- Develop accountability and time management skills.
- Gain hands-on experience with project planning and design.
- Work together well as a team and fairly split the workload.

2. Values, Mission, and Common Goals

Values

- Accountability
- Open communication
- Respect
- Integrity
- Mentorship
- Participation

Misson

- We will engage in this project to complete our course objectives while building strong communication skills, teamwork and practical skills.

Common Goals

- A full functioning product that holds up to our and the professors standards.
- Open and constant communication and reliably participating in meetings.

3. Strengths and Weaknesses

Strengths:

- Strong communication skills
- Knowledge/specialization in diverse areas
- Technical skills (coding, AI tools)
- Creativity
- Supportive team leadership

Weaknesses:

- Scheduling conflicts.
- Uneven workload distribution.
- Some of us lack experience in web development.

Address weaknesses:

- Helping each other learn missing skills.
- Regular check-in to monitor the progress.
- Redistributing tasks when needed.

4. People, Roles, and Accountabilities

Roles (Tentative) :

- Project Lead/Manager: Yu Wu, Christian
- Lead Developer (1 fullstack/frontend/backend): Rena
- QA and Testing: Alex, Binteng , Ben
- Designer/UI Devs: Owen, Jacky, Kaitlyn
- Documentation Lead: Christian, Owen
- Frontend Implementors: Jacky, Allison, Rena, Owen
- Backend Implementors: Adithya, Kaitlyn, Ben

Accountability:

- Each member is responsible for completing their assigned tasks on time
- If someone cannot complete the task, they must inform the team early
- Work should be visible and trackable

5. Needs and Expectations

What We Need from Each Other

- Reliability and timely responses
- Respectful communication
- Willingness to contribute

Expectations:

- Attend the meetings or notify in advance if unable to attend
- Complete the assigned tasks before deadlines
- Stay engaged in discussions

Availability:

- Members will share the general availability using When2Meet

Communication:

- Slack
- Zoom and in-person meetings
- Important updates will be shared in announcement channels

Conflict Resolution:

- Address the issues early and be respectful
- Discuss as a group
- If unresolved, we need to consult the TA

6. Rules and Activities

Working methods:

- Break the whole assignment into smaller tasks
- Hold regular meetings
- Set internal deadlines before the official deadlines

Measuring Success:

- Meeting the deadlines
- Quality of deliverables
- Equal participation

Ensuring Fair Contribution

- Clearly assigned tasks
- Peer accountability
- Adjust the workload if imbalance is noticed
