1 User Persona

Bio: Cheryl is a 43-year-old team supervisor at a tech company in Seattle.

Lifestyle: She often works from 8AM-6PM, but most days she has to stay later because her team frequently falls behind on deliverables. The team members she supervises often have sporadic schedules and can barely keep up with the frequent company news and changes. She also occasionally works from home after the work day or on weekends.

Goals:

- Wants to be able to efficiently manage her team's schedule and tasks
- Be able to notify her team members of both sudden and ahead of schedule changes
- Accurately track her team's progress in certain tasks

Frustrations:

- Team members not communicating their progress and issues
- Having to wait for long periods of time for updates
- Constantly being the messenger between the company and her team
